

A1 Windows

MARIETTA . GEORGIA

The Honest Window Price Guide

What 4, 8, and 12 replacement windows really cost in metro Atlanta - factory-direct, without the showroom markup.

FREE . NO OBLIGATION . a1window.com

WHY THIS GUIDE EXISTS

Getting a window price shouldn't require a three-hour sales visit. Most companies won't quote a number until a salesperson is in your living room - because the number is easier to defend once you've sat through the pitch. This guide gives you the real ranges first, so you can budget before anyone knocks.

HOW TO USE IT

Read the ranges, see what moves the number up or down, and use them to sanity-check any quote you get - from us or from anyone else. When you want a real number for your home, the last page shows the one next step.

Three kinds of window companies

Ask around and you'll get three very different numbers for the same house. The number isn't the whole story - here's what's behind each, so you know what you're actually paying for.

THE SHOWROOM

A big brand with TV ads, a showroom, and a polished in-home presentation - often \$1,500 or more per window. A lot of that pays for the marketing and the sales process, not the window.

THE LOWEST BIDDER

The cheapest number on paper, sometimes on premium-sounding glass. Check what's missing: capping, haul-away, lead-safe work, a real warranty, a crew you'll see again. A cheap window installed poorly is the most expensive one.

A1 - THE HONEST MIDDLE

Factory-direct Vytex (no showroom markup), installed by licensed local crews, with capping, cleanup, and a 2-year workmanship warranty. Quality you can verify, a fair price, and people who answer the phone.

This guide shows you A1's honest ranges - so you can place any quote you get, high or low, against a fair number.

What windows actually cost

Installed, factory-direct, by A1. These are honest ranges - not quotes. Most standard windows run about \$680 to \$1,000 each - double-pane Low-E or triple-pane. A loaded premium (top series, custom color, grids) can reach about \$1,400.

PROJECT SIZE	TYPICAL (STANDARD)	PREMIUM (LOADED)
4 windows	from \$2,700	up to \$5,500
8 windows	from \$5,400	up to \$11,100
12 windows	from \$8,100	up to \$16,600

WHAT MOVES YOUR NUMBER

Size: a big picture window costs more than a small bathroom window.

Glass package: standard vs. Low-E (energy-saving) glass.

Color & grids: white costs less than a custom exterior color or colonial grids.

Safety glass: tempered glass where code requires it - near doors, floors, and tubs.

Your openings: a clean swap costs less than one that needs capping, rot repair, a size change, or lead-safe work on a pre-1978 home.

THE ONLY WAY TO A REAL NUMBER

A free measure visit - we measure every opening and leave you a written price. No pressure, no "today-only."

Good, Better, Best

We install three Vytex series. There's no wrong choice - only the right one for how long you're staying and how much comfort you want. Buy the right thing once.

GOOD**Georgetown**

A solid, energy-efficient vinyl window. The smart spend for rentals, flips, or secondary rooms.

BETTER**Fortis**

Upgraded frame and glass for everyday comfort in the rooms you actually live in.

BEST**Potomac**

Our top series with Low-E glass and the options that matter - maximum comfort and efficiency for a home you're keeping.

A STRAIGHT ANSWER ON TRIPLE-PANE

Triple-pane is the best glass made - and because we're factory-direct, it's within reach here, not just a showroom luxury. In Atlanta the energy savings over a good double-pane Low-E are small; where triple-pane earns its keep is comfort and quiet - a busy road, a nursery, a home office. Want the best? We'll price it fairly. Prefer the smart-value play? Double Low-E is excellent here. You choose - we give you both numbers.

Not sure which? Tell us how long you plan to stay and which rooms run hot or cold, and we'll point you to the one we'd pick if it were our house.

What's included - and what cheap quotes hide

EVERY A1 PRICE INCLUDES

- + Measuring every opening
- + Removing and hauling away your old windows
- + Full installation by Georgia-licensed crews
- + Color-matched aluminum capping on the exterior trim
- + Caulking, sealing, and cleanup
- + A 2-year workmanship warranty - plus Vytex's lifetime product warranty

WHAT A SUSPICIOUSLY CHEAP QUOTE OFTEN LEAVES OUT

- Capping the exterior trim (so bare wood is left exposed)
- Hauling away the old windows
- Lead-safe practices on a pre-1978 home
- The real glass package (quoted on the cheapest glass, upsold later)

Comparing quotes the right way? Ask every company the same seven questions - our free checklist, "7 questions to ask before you sign a window contract," puts every quote on the same page.

Your protection, in plain English

Two warranties, named separately - because that's how you should always see it.

1 . YOUR WINDOWS - VYTEX LIMITED LIFETIME

For as long as you live in your home, Vytex covers what actually fails: the frame and sash, the hardware (balances, locks, rollers), the screens, and the insulated glass seal - the foggy-glass failure. Residential glass breakage is covered too, and the factory color finish for 10 years. Selling? It transfers to the next owner.

2 . YOUR INSTALLATION - A1 2-YEAR WORKMANSHIP

For two full years, if anything about how we installed your windows isn't right - a draft, a stuck sash, a leak at the trim - we come back and make it right at no charge. We're local, Marietta-based, and owner-supervised: you call us, and you get us.

Why we separate them: "lifetime everything" usually means "lifetime on whatever we decide is our fault." We'd rather tell you exactly who covers what - so you can put us next to anyone, on the same page.

Want your real number?

Book a free, no-pressure measure visit. We measure every opening, show you options, and leave a written estimate that answers all seven questions - no "today-only," no games.

ABOUT A1 WINDOWS

A1 Windows is a Marietta-based window and door replacement company serving about a dozen cities around Atlanta. We install Vytex windows bought factory-direct, with Georgia-licensed crews supervised by the owner, a Vytex lifetime limited product warranty, and a 2-year A1 workmanship warranty. Our written estimate answers the seven questions every homeowner should ask - on its own pages.

THE HONEST PROMISE

We'll tell you when a repair makes more sense than a replacement. We price each opening for what it actually needs. And we put the whole number in writing, good through the validity date on your estimate. That's it.
